Find the one that's your YouTube tab Then click on the triangle to reveal a list of items related to that tab.. Now, let's open up Safari and go to YouTube And I'm gonna find a video that I like from CNET TV.. There's surely a lot of stuff here, but if you look closely, you'll find the largest file in that list.. The file will now download directly to your computer, and now you can watch it whenever you want, or use it to create those popular YouTube mash-ups and response videos.. Mar 16, 2013 This opens an Activity window with a list of active items; the one that is the biggest size I copy; then clicking on Downloads in the topmost Window menu, in the blank Downloads window that then opens, I do a paste.. A window will appear, and each line here represents a tab or window you currently have open in Safari. 34bbb28f04 [برنامج الخرائط الذهنية وبالعربي \(مايند مانجر\) سيارات](#)
